

# ARIELLE DAMESHGHİ

SOFTWARE DEVELOPER

## SKILLS

JavaScript, HTML, CSS, Git, AJAX, Node.js, Object-oriented programming, Agile methodologies, Test-driven development

## PROJECTS

### Startup Employee Project

JavaScript • CSS • HTML

Employee directory that utilizes the Random User Generator API to fetch and display user data in the form of 12 individual employee cards organized in a grid.

### Conference Registration Form

JavaScript

A conference registration form with real-time validation as well as dynamic user contact info, t-shirt order, activity registration, and payment sections.

### WebApp Dashboard

JavaScript • CSS • HTML

A user interface that utilizes interactive charts by Chart.js to represent site traffic. Includes messaging section with form validation and toggleable settings switches.

## EXPERIENCE

*Oct 2019 – Oct 2020*

**Language and Culture Assistant Instructor** • Ministerio de Educación • Bailén, Spain

Adapted customized lesson plans for the classroom in coordination with lead instructor and conveyed that information effectively, both verbally and in writing. Monitored and assessed students' progress and accordingly selected suitable instructional methods.

*Mar 2018 – Aug 2019*

**Editorial Assistant** • Wolters Kluwer • Philadelphia, PA

Assisted with developmental editing tasks such as review analyses, permissions, and chapter mapping for online course modules. Created and maintained ISBNs/product records within proprietary title management software.

## EDUCATION

**Bachelor's in Social Thought and Political Economy**

University of Massachusetts Amherst, Feb 2017
