SUMMARY

Detail-oriented software developer with 3+ years of enterprise application development experience with customer-facing apps. In previous roles, facilitated an 8% increase in deployment frequency and an approximately 15% average quarter over quarter decrease in number of days until remediation of high-risk vulnerabilities. Also contributed to the planning, development, and maintenance of a proprietary mobile app that automates gating decisions and is estimated to save the company more than a minute of taxi time per flight, adds up to 10 hours of reduced taxi time per day, lowers fuel usage, and decreases CO2 emissions.

EXPERIENCE

Developer, IT Applications | American Airlines

MAY 2022 - PRESENT

- Build and maintain applications for web, mobile, and kiosk with **Java**, **JavaScript**, **TypeScript**, **React**, **Spring**, **Spring Boot**, and **PostgreSQL**
- Develop **RESTful** and **SOAP APIs** as well as scalable microservices which consume services both within and outside our team's ownership
- Promote test automation using test driven development (**TDD**) to write unit tests and integration tests with **JUnit**, **Mockito**, and **Jest**
- Implement DevOps practices such as building continuous delivery, continuous integration (**CI/CD**) pipelines that assemble, test, publish, release, and deploy code using **Jenkins**, **GitHub Actions**, and **Azure Kubernetes Service** (AKS)
- Ensure the performance and reliability of distributed applications using **RabbitMQ** on **IBM Cloud** for message brokering, **IBM Cloudant** for querying production data, and **Mezmo** (formerly LogDNA) for logging
- Coordinate with product owners to identify business requirements

Associate Developer, IT Applications | American Airlines

MAR 2021 – MAY 2022

- Planned, developed, and maintained Dynamic Reaccommodation tool that helped slash delay- and cancellation-related revenue loss and contributed to a record 40% profit increase from the previous year

Language And Culture Assistant Instructor | Ministerio de Educacion, Spain

OCT 2019 – OCT 2020

- Adapted and delivered customized lesson plans for the classroom in coordination with lead instructor

Editorial Assistant | Wolters Kluwer

MAR 2018 – AUG 2019

- Performed developmental editing tasks for publishing division that recorded double-digit organic growth despite industry-wide sales decline by driving early adoption of digital media

EDUCATION

Bachelor's in Social Thought and Political Economy

University of Massachusetts Amherst, FEB 2017
